

Sheet Metal Fabricator

We are adding an additional full-time sheet metal fabricator. Creativity is a must as you will be designing pieces from scratch and/or from sketches and concept drawings.

Projects will and can include:

- Forming and shaping of body panels and patches
- Custom dashes
- Custom body modifications

Requirements include:

- Detail oriented team player
- A good work ethic as well as integrity
- Passion for obsolete and advancing technology
- A love of hot rods, performance cars and customs
- Employee-supplied hand tools to compliment the tools used within the shop
- Experience using Baileigh tools a plus.

Former Military personnel are also highly encouraged, especially those with avionics experience.

Send resumes to tiny@hotrodchassisandcycle.com or fax to 630.458.0810. INCLUDE a brief cover letter detailing why you think you have what it takes to build hot rods and race cars.
