RPM HOUSING RESOURCES GUIDE

This document is a starter guide for interns and apprentices looking for housing. The lists and links below are a few of the many resources available in different parts of the country to aid you in your search. Keep in mind that you need to be flexible when looking for short-term housing. You may be able to work out a deal with someone renting a room on Airbnb or Craigslist, or perhaps exchange work at a local hotel for a discounted room or connect with car clubs in the area who may have a member with rentals. Be vigilante and think about your personal comfort and safety when looking for housing and take someone with you when visiting properties, if possible. Do your research ahead of time.

Things to consider when looking for short-term housing:

- 1) Dorm Housing
 - a) Are meal plans available?
If yes- what is the additional cost?
If no- are the kitchen facilities available on site?
- 2) Apartments
 - a) Are utilities included in the rent?
If yes, does that include cable/internet?
 - b) Is a security deposit required?
 - c) If you are sub-letting the apartment, do you need the landlord's permission to do so?
 - d) If you are renting a room in a house or shared apartment, what is your responsibility for utilities or are they included?
 - e) Do you have access to Wi-Fi or other internet?
