

Mechanic / Final Assembly Specialist

We are looking for a full-time mechanic/final assembly specialist.

Projects will include:

- Wiring, plumbing and installing painted sheet metal
- Swapping parts on smaller jobs,
- Working with carbureted engines as well as EFI and performing conversions,
- Suspension knowledge of vehicles from 1930s to current date,
- Perform quality control test drives
- Other duties as needed
- Minor mechanical projects, such as intake swaps, carb swaps, disc brake swaps, transmission swaps, etc.

Requirements include:

- Perform duties with little to no supervision
- Possess the skill level to allow you to assess and solve problems as they arise
- Detail oriented
- Good work ethic as well as integrity
- Passion for obsolete and advancing technology
- Love of hot rods, performance cars and customs
- Candidate will provide their own hand tools to compliment the tools used within the shop

Former Military personnel are highly encouraged, especially those with avionics experience. Only seasoned and experienced candidates will be considered.

Send resumes to tiny@hotrodchassisandcycle.com or fax to 630.458.0810. INCLUDE a brief cover letter detailing why you think you have what it takes to build hot rods and race cars.
